AMENDMENTS TO THE SPECIFICATION

Page 5, please amend the second full paragraph to read as follows:

According to the invention, within the tank 2 there is provided a level-sensor device, for example of the type illustrated in Figure 2. In this case, the sensor device 13 illustrated in Figure 1 is completely eliminated, and the level-sensor device indicated as a whole by the reference number 30 in Figure 2 is used. This has a structure completely independent both of that of the ~~engine-pump~~ 11 illustrated in Figure 1 and of that of any other component present within the tank.
